

# How To Play 3 Card Poker

## Objective of the Game

3 Card Poker is a fast-paced casino table game where players aim to make the best possible poker hand with only three cards, while also trying to beat the dealers hand.

## Game Setup

Each player places an Ante bet to begin. Players may also place optional bets such as Pair Plus or 6-Card Bonus. Both the player and the dealer are dealt three cards.

## Player Decisions

- After viewing their cards, players can either Fold (forfeit their Ante) or Play (place an equal Play bet to continue).

## Dealer Qualification

The dealer needs a Queen high or better to qualify:

- If the dealer does not qualify, Ante bets win even money, and Play bets push.
- If the dealer qualifies and the player has a better hand, both bets win even money.
- If the dealers hand is better, both bets lose.

## Bonus Bets

- **\*\*Pair Plus\*\***: Pays based on players hand strength regardless of dealers cards (e.g., pair or better).
- **\*\*6-Card Bonus\*\***: Optional bet combining the dealer's and player's cards to form the best 5-card hand.

## Hand Rankings (High to Low)

- Straight Flush
